

Parents,

We have entered the planning phase of a backpacking trip for July 2025. To help us with this planning phase we will need you to fill out this survey expressing your students interest. If you have two students that qualify for this trip please fill out a survey for each student. Filling out the survey does not guarantee your student a spot on the trip it simply communicates the interest so that we can better plan. Fill out the survey HERE!

This trip will be through the back country of Medicine Bow National Forest. We will be staying six nights on the trail carrying everything with us in our packs. Each person will be teamed in groups of three and will carry one of three items along with all of their personal belongings (tent, food, cooking supplies). The trail we will be taking is a 24 mile hike where we will trek up to 8 miles on longer days. We plan to hike 4-6 hours per day at high altitude with significant elevation changes. We give you these details now because this trip is an extremely physically taxing trip and is not for everyone. As you

consider if you would like to go please be honest with yourself and aware of all of

the challenges. The students will be taught how to setup a camp and make backpacking food over a jet boil stove and will have to learn to use the bathroom in the woods in a forest friendly way.

We will have certain qualifications to go on this trip. All students will have to fill out an application, complete a medical physical or health screen from their doctor, attend all required training meetings, and be regular attenders in the Headwaters Church Youth Group. All of these requirements are intentional to insure your safety and the success of our overall goal to build into the students already growing relationship with God and give them an experience unlike any other.
